WELCOME TO THE LANGLEY MATERNITY CLINIC!

We are a group of family physicians who have been active in obstetrics in the community for many years. We are now providing maternity care through our Maternity Clinic, which opened September 1, 2004. We have obstetrical privileges through Langley Memorial Hospital for the delivery of your baby.

We will be seeing you for your pre and postnatal care in our clinic facility located on 3 North at Langley Memorial Hospital. **After the initial review of your medical history and complete physical exam, prenatal visits will be scheduled monthly until your baby is born**. Postpartum visits include a visit for you and your baby at one week after your baby is born. Following this appointment, you will return to the care of your family physician. Please make sure we are aware of the name of the family doctor that will assume care for you and your baby after the postpartum care.

We work closely with a group of excellent obstetricians, anesthetists, and paediatricians, who are available for consultations if any complications occur during pregnancy or delivery.
Referrals will be accepted through your family physician.

If you are unable to attend an appointment, please let us know. If patients are, frequent 'no shows', they will be billed after 2 missed appointments ($25 for regular appointment and $75 for complete exams).

The maternity clinic is open 9:00 AM to 4:00 PM Monday to Friday. If you need assistance outside of our office hours, please phone the Maternity Ward at (604) 514-6034 or for non-urgent matters leave a message at (604) 514-6151.

We are looking forward to getting to know you over the next few months.
